

Fabric Care | TempleFurniture

PROPER CARE WILL HELP ENSURE YOUR UPHOLSTERY REMAINS BEAUTIFUL AND COMFORTABLE FOR YEARS TO COME.

Cleaning by a professional furniture cleaning service is recommended for all of the codes below.

To prevent overall soil, frequent vacuuming or light brushing to remove dirt and grime is suggested.

Try to maintain at least two feet between your furniture and heating sources. Prolonged exposure to heat vents or radiators will cause your fabric fibers, cushions, and wood to dry out and become brittle or warped.

Avoid placing furniture in direct sunlight, as prolonged exposure can cause all materials to fade over time.

Do not allow house pets to sit on your furniture. Make sure nearby plants are in drip proof pots and keep foliage from touching the furniture surface.

Avoid placing newspapers and magazines on the fabric to prevent permanent dye transfer.

Keep your furniture free from dust by vacuuming the surface weekly and rotating the cushions to promote even wear.

Spot Treatment – Address spills promptly by blotting with a clean, absorbent cloth. Avoid rubbing, which may damage fibers.

Code W

USE A WATER-BASED OR FOAM CLEANING SOLVENT

Code S

USE A MILD, WATER-FREE DRY CLEANING SOLVENT

Code X

VACUUM OR BRUSH LIGHTLY TO REMOVE SOIL

Code WS

USE EITHER A WATER-BASED CLEANING SOLVENT, DRY CLEANING SOLVENT, OR FOAM CLEANER
