PERFORMANCE FABRICS

Discover the beauty of sustainability with our Sustain Performance Fabrics™—a perfect harmony of style and durability. Crafted for everyday households and busy commercial environments, these fabrics boast easy cleanability with just soap, water, or diluted bleach, while avoiding the use of extra chemicals. Made from low-impact fibers and utilizing fewer natural resources, our fabrics redefine responsible luxury, ensuring your furniture is not only lasting but also leaves a lighter footprint on the planet. Embrace the effortless blend of practicality and eco-conscious living with Sustain Performance Fabrics™—where enduring comfort meets the demands of everyday life allowing you to worry less and live more!

Spot cleaning *with Soap + Water*

The spot cleaning method of stain removal can be used for most light to medium stains.

1. Before spot cleaning, blot up liquids on the surface with a clean, soft towel and brush off any loose dirt.
2. Prepare a cleaning solution of 1/4 tsp mild, enzyme detergent, such as standard dishwashing liquid, per 1 cup of lukewarm water.
3. Apply the cleaning solution using a misting spray bottle.
4. Work the solution into the affected area by lightly scrubbing the area with a sponge or soft bristle brush. Make sure to work from the outside of the stain inward so as not to spread the stain and rinse your sponge or brush frequently.
5. Allow cleaning solution to soak into the fabric.
6. Rinse thoroughly to remove all soap residues, as residues will attract dirt. Blot excess moisture with a clean, soft towel or sponge.
7. Repeat steps 3-6 as needed.
8. Allow fabric to air dry.

Spot Cleaning *with Bleach*

1. Remove any loose debris and blot the stain.
2. Prepare a bleach based cleaning solution : Bleach should be diluted with water on a 1:5 ratio.
3. Apply the bleach based cleaning solution using a misting spray bottle and allow for the solution to soak into fabric.
4. Work the solution into the affected area by lightly scrubbing the area with a sponge or soft bristle brush. Work from the outside of the stain inward so as not to spread the stain and rinse your sponge or brush frequently.
5. Blot and thoroughly rinse fabric with water until the stain is cleaned. *Make sure to remove all bleach from surface of the fabric*
6. Allow fabric to air dry.

No Added Chemicals

“Forever” chemicals do not break down in the environment and can remain in the human body for long periods of time. Sustain Performance Fabrics do NOT require added chemistry to achieve its performance! You can relax knowing Sustain is: PFAS FREE, BPA FREE, FR CHEMISTRY FREE, and RED LIST FREE.

Low Impact Fiber

Polypropylene, which is a byproduct of oil refining and natural gas processing, is UPCYCLED into our durable and moisture resistant solution-dyed yarn. Our capability to blend these low impact fibers with other recycled polyester fibers in our toolbox further enhances the softness and sustainability of the product.
